// ABOUT ME

Newly graduated from RBK as a full stack developer. I change my career to development because i was fascinated by new technologies and the power of coding and developing multiple projects.

Excited to be at the deployment phase of my new career as a web developer, also willing to practice my soft skills in the professional life.

// PROJECTS

● CAR-POOLING WEBSITE

Product Owner/Developer

Car-pooling project is a platform that creates a link between citizen to share rides and commute together.

Main tasks:

- Implement jwt authentication
